

Faculty Disengagement

November 9, 2015

The Uniform Guidance recognizes that PIs can be engaged in projects even if not physically on-campus. PIs must submit a request through their assigned Grants Program Manager in Notre Dame Research Administration for prior approval from the federal sponsor if they will be “disengaged” from any project for more than three months or if there is a 25% reduction in time committed to the project from the approved budget. If a PI is actively engaged in a project, even if offsite, such approval is not required.
