

## NDR Internal Application

[https://hypersonics.tamu.edu/wp-content/uploads/2022/09/UCAH-Core-Solicitation-2022-002\\_Topics\\_All89.pdf](https://hypersonics.tamu.edu/wp-content/uploads/2022/09/UCAH-Core-Solicitation-2022-002_Topics_All89.pdf)

Return to [limited@nd.edu](mailto:limited@nd.edu) by 11:59 PM Eastern October 20, 2022 in one PDF document.

Note the guidelines below:

- Figures and tables must be numbered and, when referenced in the text, be referenced by that number. They should be of a size that is easily readable and may be in landscape orientation. They must be formatted to print on an 8.5 x 11-inch paper size.
- WPs will be single-spaced with one-inch margins on all sides. Font should be Times New Roman font (11-point minimum). Smaller font may be used in figures and tables, but must be legible.
- WPs must be in portrait orientation except for figures, graphs, images and pictures.

Your completed internal application should include:

### 1) Cover Page (1 page maximum)

- a) Project Title
- b) Technical Area and Topic Title and Number
- c) Primary Technical Point of Contact (POC), including name, address, phone and email contact information
- d) Co-PI(s) names and institutions (no more than four, including the lead PI/primary technical point of contact)
- e) Primary Business POC, including name, address, phone and email contact information
- f) Total Solution Rough Order of Magnitude (ROM) price

### 2) For All Topics (3 pages maximum)

Address the section "Proposals should include" when this is made explicit in the document. Absent this specificity, address background and benefits of proposed solution as well as technical approach details.
