Focus: This Notice of Funding Opportunity (NOFO) invites eligible institutions to seek funds to transform or improve the operations of existing shared research facilities through the purchase and installation of latest equipment that enable and enhance a broad range of research-supporting activities. Any equipment supported by this NOFO must be substantially used in a laboratory research core facility, animal facility, or similar shared-use research space to ensure broad benefits for the institutional research community. Moreover, any request must be justified by research-related demands for the modernization of research-supporting functions or for the advancement of facility operations. This NOFO does not support the purchase of scientific instruments or their components, nor components of building-level infrastructure equipment that indirectly support research activities (such as HVACs or power generators).

Required Internal Application: Upload the following information to the Google Form
