Purpose: The purpose of this program is to improve retention of health care providers and increase access to health care services in rural and frontier areas, health professional shortage areas, and medically underserved areas, and for medically underserved populations and Native Americans.

Funding Opportunity Goals:

- HRSA will support innovative, technology-enabled learning and capacity-building models that connect health care professionals, especially specialists, with providers serving the target populations.
- Recipients will expand where and how services are delivered by using technology to strengthen learning models and reach more providers, especially in underserved areas.
- Recipients will use telehealth-based treatment approaches within these technology-enabled models to address the diseases and conditions listed in the Summary and improve access to quality care.

Program Goals: Through this opportunity, HRSA will support innovative technology-enabled collaborative learning and capacity building models that:

- Connect health care professionals, especially specialists, with others serving target populations.
- Expand where and how services are delivered.
- Increase the reach of existing learning models.
- Develop new technology strategies, methods, or tools.
- Use telehealth-based treatments for diseases listed in the Summary.
