Summary: For 45 years, the U.S. Centers for Disease Control and Prevention (CDC) has partnered with the Government of Kenya (GoK) to protect the health of the Kenyan people and strengthen their health systems. The U.S. Government (USG) remains the largest investor in Kenya's health sector.

This investment includes PEPFAR (President's Emergency Plan for AIDS Relief), Global Health Security (GHS), Malaria, Tuberculosis (TB), Immunizations, and Influenza. Building on prior CDC-funded activities, this Notice of Funding Opportunity (NOFO) supports USG GHS priorities in Kenya by expanding programs to better prevent, detect, and respond to infectious disease threats.

Purpose: The purpose of this NOFO is to:

- Improve prevention of avoidable epidemics, whether they occur naturally, accidentally, or intentionally.
- Improve ability to spot threats early by identifying, describing, and reporting biological threats when they appear.
- Respond rapidly and effectively to public health emergencies of international concern (PHEICs).
- Strengthen science programs and platforms to improve health outcomes.

Internal Application Requirements: Upload the following information to the Google Form at <https://forms.gle/FqNLY5SUpQcsM5nU9> by the internal deadline:

- Name of the Principal Investigator (PI)
- Project Title
- All ND Collaborators:
 - For each ND Collaborator listed, include name, department or unit, and specific role for this project in three sentences (maximum).
- Project Summary: Three (3) pages (maximum) addressing the evaluation criteria outlined in the table on page 54 of the NOFO:
 - Background and approach
 - Evaluation and performance measurement plan
